ABOUT ME

I am a motivated Computer Science Engineering graduate (2025) with a strong foundation in web development and problem-solving. I have hands-on experience in building responsive and user-friendly web applications using React.js, JavaScript, and basic backend technologies like Node.js. I am passionate about learning new technologies, improving my coding skills, and creating impactful digital solutions. I am looking for an opportunity where I can apply my technical knowledge, grow professionally, and contribute to the success of the organization.
